## EDUCATION

---

### Nova Scotia Community College (NSCC)

Sep 2023 - Present

IT Web Programming | Truro, NS | 98% average grade

Actively engaging in coursework and learning experiences involving full-stack web application and website development. Learning up-to-date and industry-standard technologies & skills such as:

- React & ASP.NET Core frameworks
- MySQL & MongoDB
- Docker & other virtualization tools
- Project management and Agile

## WORK EXPERIENCE

---

### Community Assistant

Sep 2024 - Present

Nova Scotia Community College (NSCC) | Truro, NS

Overseeing daily operations in the dorms by enforcing housing policies, addressing student concerns, organising events, resolving conflicts, and acting as the primary point of contact for students needing assistance or guidance.

## FEATURED PROJECTS (review my [portfolio](#))

---

### [NSCC ESports Lounge Booking System](#)

An online booking system under development with React and Next.js to be used by NSCC's Truro Campus ESports lounge. This system consists of a public end, where the college's students and staff are able to book a station in the lounge, and a management panel where lounge staff can adjust availability and fulfill booking requests.
